SOME NEW PROJECTS

▲ Mazda Limited - Greater Ahmedabad Heavy Engineering Plant

▲ AIA Engineering Limited - Greater Ahmedabad A Large Foundry and Machine Shop

▲ Nirma Healthcare - Greater Ahmedabad New Pharmaceutical Formulation Plant

▲ Tech Textile (A Division of Neo-Corp. International Ltd.) Non-Woven Textile Plant - Pithampur (Madhya Pradesh)

Poggehamp Nagarsheth Powertronics Pvt. Ltd.

Dt: 23-07-2013

Team SMPS

We were scouting for an appropriate consultant to design or 10,000 m² manufacturing unit near Kheda. After discussing with Shri Sukumarbhai we decided to appoint SMPS as our consultants.

Meticulous planning & execution prompted us to look at team SMPS as our guide and friend. Though our project got delayed by more than a year, never ever a finger was pointed at us. On the contrary their patience and understanding were beyond any expression in words.

Whenever new ideas were discussed, Sukumarbhai always listened and acted upon such fruitful decisions with very pragmatic approach.

Our association still continues and we cherish the relationship with team SMPS.

With warm regards,

For Poggehamp Nagarsheth Powertronics Pvt. Ltd.

WHAT CLIENTS HAVE TO SAY ABOUT SMPS

11th July, 2013

AIA Engineering has engaged with SMPS for more than a decade now. I have personally had the pleasure of interacting with Shri Sukumarbhai on several occasions in addition to many other staff members. SMPS's technical capabilities are well known and need no endorsement from our side. They are conservative in their approach but assured that there will be no short change. They have deep technical skills and a great team which carry the baton forward.

SMPS has participated in designing of all factories that we built in last few years and have literally participated in AIA's growth story. They have supported us not only in architectural and structural work but also for electrical and utility work. Their working style allows for healthy debates on matters where there may not be an agreement on both sides and that allows for a win-win solution for everyone.

SMPS is part of a reducing breed of engineering consultants where there is no conflict of interest and where the principals have stayed the course in terms of focus on pure design work. This adds a very unique comfort in terms of honest work.

Lastly, for me personally, Shri Sukumarbhai is like a wise sage with a very balanced world view and meeting him is always an opportunity that I don't miss.

We wish SMPS the very best. For AIA Engineering Limited

Kunal Shah
Executive Director (Finance)

To Whomsoever It May Concern

We know SMPS Consultants since many years. When four years back our expansion plans were ready to get shape, we invited them to take up complete charge to actualize our plans. In last about three years, they have completed three of our projects and two more projects are in progress.

The SMPS Team, lead by visionary Mr. Sukumar Parikh, is comprised of competent professional, cooperative people and positive human beings. Their designs are good & robust, and workmanship excellent. Above all, they are highly committed professionals. One can depend on them for quality of work, budgetary compliance also time-bound completion.

We wish the Team SMPS to forge ahead in years to come with still high all-round contributions to the industrial fraternity and become a name of recognition on the global map.

SMPS NEWS

October, 2013

Sukumar M. Parikh

This issue of SMPS Newsletter is coming out after a lapse of a long interval.

We are happy to present here a few diversified projects recently completed or in a state of completion. These projects represent various types

of projects at different locations designed by SMPS.

SMPS is therefore proud to emphasize its competence to handle several complex and multidisciplinary industrial plants involving different engineering and design skills.

Variety of projects that SMPS handles is vast. SMPS is one of the few offices offering such a kind of experience and in-house comprehensive expertise of different disciplines which require planning for disparate nature of industrial projects.

SMPS also undertakes numerous social responsibility activities for which we are quite proud. Our activities to this end encompass strengthening of educational needs of girl students from neighbourhood schools. We make efforts to cater to their general well being by providing dresses and sweaters to the needy. Other activities encompass helping organize blood donation camps and free diagnostic medical camps. SMPS also organizes activities to strengthen social bonds for girls and young women coming from economically challenged neighbourhoods.

I am happy to introduce to our readers Mr. Rajendrakumar C. Patel who had joined SMPS pariwar and has been designated as Joint Managing Director on the Board of Directors of SMPS. Mr. R. C. Patel brings with him an impressive and diverse range expertise in engineering fields. His joining SMPS will strengthen our design engineering capabilities. He has a Masters Degree from University of Michigan, Ann Arbor, USA.

We are grateful to many of our clients who have written to us letters, some of which are placed here on a random selection basis.

We greet all the readers of SMPS Newsletter.

R. C. Patel
